Argomix H2

1.1. Product identifier	
Product form	: Mixture
Trade name	: Argomix H2
SDS code	: MSDS.000162
1.2. Relevant identified	uses of the substance or mixture and uses advised against
Relevant identified uses	: Industrial and professional uses. Perform risk assessment prior to use.
Uses advised against	 Consumer use. Uses other than those listed above are not supported, contact your supplier for more information on oth uses.
1.3. Details of the suppl	lier of the safety data sheet

MSDS.000162

Argomix H2

SECTION 3: Composition/information on ingredients

3.1. Substances

Not applicable

3.2. Mixtures

Name	Product identifier	%	Classification according to Regulation (EC) No. 1272/2008 [CLP]
Argon	CAS-No.: 7440-37-1 EC-No.: 231-147-0 EC Index-No.: REACH-no: *1	98	Press. Gas (Comp.), H280
hydrogen	CAS-No.: 1333-74-0 EC-No.: 215-605-7 EC Index-No.: 001-001-00-9 REACH-no: *1	2	Flam. Gas 1A, H220 Press. Gas (Comp.), H280

Full text of H- and EUH-statements: see section 16

Contains no other components or impurities which will influence the classification of the product.

*1: Listed in Annex IV / V REACH, exempted from registration.

*3: Registration not required: Substance manufactured or imported < 1t/y.

SECTION 4: First aid measures		
4.1. Description of first aid measures		
Inhalation	: Remove victim to uncontaminated area wearing self contained breathing apparatus. Keep victim warm and rested. Call a doctor. Perform cardiopulmonary resuscitation if breathing stopped.	
Skin contact	: Adverse effects not expected from this product.	
Eye contact	: Adverse effects not expected from this product.	
Ingestion	: Ingestion is not considered a potential route of exposure.	

4.2. Most important symptoms and effects, both acute and delayed

In high concentrations may cause asphyxiation. Symptoms may include loss of mobility/consciousness. Victim may not be aware of asphyxiation. See section 11.

4.3. Indication of any immediate medical attention and special treatment needed

	None.
SECTION 5: Firefighting measures	
5.1. Extinguishing media	
Suitable extinguishing media	: Water spray or fog.
Unsuitable extinguishing media	Product does not burn, use fire control measures appropriate for the surrounding fire. : Do not use water jet to extinguish.
5.2. Special hazards arising from the substan	ice or mixture
Specific hazards Hazardous combustion products	Exposure to fire may cause containers to rupture/explode.None.
5.3. Advice for firefighters	
Specific methods	 Use fire control measures appropriate for the surrounding fire. Exposure to fire and heat radiation may cause gas receptacles to rupture. Cool endangered receptacles with water spray jet from a protected position. Prevent water used in emergency cases from entering sewers and drainage systems. If possible, stop flow of product. Use water spray or fog to knock down fire fumes if possible. Move containers away from the fire area if this can be done without risk.
Special protective equipment for fire fighters	 In confined space use self-contained breathing apparatus. Standard protective clothing and equipment (Self Contained Breathing Apparatus) for fire fighters. Standard EN 469 - Protective clothing for firefighters. Standard - EN 659: Protective gloves for firefighters. Standard EN 137 - Self-contained open-circuit compressed air breathing apparatus with full face mask.

according to the REACH Regulation (EC) 1907/2006 amended by Regulation (EU) 2020/878 Version: 1.0 Revision date: 13/12/2022 Issue date: 13/12/2022

MSDS.000162

Argomix H2

6.1. Personal precautions, protective equipment and emergency procedures		
6.1. Personal precautions, protective eq	upment and emergency procedures	
For non-emergency personnel	: Act in accordance with local emergency plan.	
	Try to stop release. Evacuate area.	
	Ensure adequate air ventilation.	
	Prevent from entering sewers, basements and workpits, or any place where its accumulation can be	
	dangerous.	
	Stay upwind.	
	See section 8 of the SDS for more information on personal protective equipment	
For emergency responders	: Wear self-contained breathing apparatus when entering area unless atmosphere is proved to be safe.	
	Oxygen detectors should be used when asphyxiating gases may be released. See section 5.3 of the SDS for more information.	
6.2. Environmental precautions		
	Try to stop release.	
6.3. Methods and material for containme	ant and cleaning up	
0.3. Methous and material for containing		
	Ventilate area.	
6.4. Reference to other sections		
	See also sections 8 and 13.	
SECTION 7: Handling and storage		
7.1. Precautions for safe handling		
Safe use of the product	 The product must be handled in accordance with good industrial hygiene and safety procedures. Only experienced and properly instructed persons should handle gases under pressure. 	
	Consider pressure relief device(s) in gas installations.	
	Ensure the complete gas system was (or is regularily) checked for leaks before use.	
	Do not smoke while handling product.	
	Use only properly specified equipment which is suitable for this product, its supply pressure and	
	temperature. Contact your gas supplier if in doubt.	
	Avoid suck back of water, acid and alkalis.	
	Do not breathe gas.	
	Avoid release of product into work area.	
Safe handling of the gas receptacle	 Do not allow backfeed into the container. Protect containers from physical damage; do not drag, roll, slide or drop. 	
	When moving cylinders, even for short distances, use a cart (trolley, hand truck, etc.) designed to	
	transport cylinders.	
	Leave valve protection caps in place until the container has been secured against either a wall or benc	
	or placed in a container stand and is ready for use.	
	If user experiences any difficulty operating valve discontinue use and contact supplier.	
	Never attempt to repair or modify container valves or safety relief devices.	
	Damaged valves should be reported immediately to the supplier.	
	Keep container valve outlets clean and free from contaminants particularly oil and water.	
	Replace valve outlet caps or plugs and container caps where supplied as soon as container is disconnected from equipment	
	disconnected from equipment. Close container valve after each use and when empty, even if still connected to equipment.	
	Never attempt to transfer gases from one cylinder/container to another.	
	Never use direct flame or electrical heating devices to raise the pressure of a container.	
	Do not remove or deface labels provided by the supplier for the identification of the content of the	
	container.	
	Suck back of water into the container must be prevented.	

according to the REACH Regulation (EC) 1907/2006 amended by Regulation (EU) 2020/878 Version: 1.0 Revision date: 13/12/2022 Issue date: 13/12/2022

MSDS.000162

Argomix H2

7.2. Conditions for safe storage, including any incompatibilities

Observe all regulations and local requirements regarding storage of containers.

Containers should not be stored in conditions likely to encourage corrosion.

Container valve guards or caps should be in place.

Containers should be stored in the vertical position and properly secured to prevent them from falling over.

Stored containers should be periodically checked for general condition and leakage.

Keep container below 50°C in a well ventilated place.

Store containers in location free from fire risk and away from sources of heat and ignition. Keep away from combustible materials.

7.3. Specific end use(s)

None.

3.1. Control parameters	
OEL (Occupational Exposure Limits)	: None available.
DNEL (Derived-No Effect Level)	: None available.
PNEC (Predicted No-Effect Concentration)	: None available.
8.2. Exposure controls	
8.2.1. Appropriate engineering controls	
	Provide adequate general and local exhaust ventilation. Oxygen detectors should be used when asphyxiating gases may be released. Systems under pressure should be regularily checked for leakages. Consider the use of a work permit system e.g. for maintenance activities.
8.2.2. Individual protection measures, e.g. perso	nal protective equipment
	A risk assessment should be conducted and documented in each work area to assess the risks related to the use of the product and to select the PPE that matches the relevant risk. The following recommendations should be considered: PPE compliant to the recommended EN/ISO standards should be selected.
Eye/face protection	: Wear safety glasses with side shields. Standard EN 166 - Personal eye-protection - specifications.
Skin protection	
Hand protection	: Wear working gloves when handling gas containers. Standard EN 388 - Protective gloves against mechanical risk, performance level 1 or higher.
Other	: Wear safety shoes while handling containers. Standard EN ISO 20345 - Personal protective equipment - Safety footwear.
Respiratory protection	 When indicated by a risk assessment, Respiratory Protective Equipment must be used. The selection of the Respiratory Protective Device (RPD) must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected RPD. Self contained breathing apparatus is recommended, where unknown exposure may be expected, e.g. during maintenance activities on installation systems. Standard EN 137 - Self-contained open-circuit compressed air breathing apparatus with full face mask.
Thermal hazards	: None in addition to the above sections.
3.2.3. Environmental exposure controls	
	None necessary.

9.1. Information on basic physical and chemical properties

Sapio Produzione Idrogeno Ossigeno Srl	EN (English)	MSDS.000162	
Flammability	: Non flammable.		
	lowest boiling point: hydrogen	-253 °C	
	It is technically not possible to	determine the boiling point or range of this mixture. Comp	ponent with
Boiling point	: Not applicable for gas mixture	S.	
Melting point / Freezing point	: Not applicable for gases and g	gas mixtures.	
	Odour threshold is subjective	and inadequate to warn of overexposure.	
Odour	: Odourless.		
- Colour	: Colourless.		
 Physical state at 20°C / 101.3kPa 	: Gas.		
Appearance

Argomix H2		
Lower explosive limit (LEL)	: Not available.	
Upper explosive limit (UEL)	: Not available.	
Flash point	: Not applicable for gases and gas mixtures.	
Auto-ignition temperature	: Non flammable.	
Decomposition temperature pH	: Not applicable. : Not applicable for gases and gas mixtures.	
Viscosity, kinematic	: Not applicable for gases and gas mixtures.	
Water solubility [20°C]	: Mixture is partially soluble in water	
Partition coefficient n-octanol/water (Log Kow)	: Not available.	
Vapour pressure [20°C]	: Not applicable.	
Vapour pressure [50°C]	: Not applicable.	
Density and/or relative density	: Not applicable.	
Relative vapour density (air=1)	: Heavier than air.	
Particle characteristics	: Not applicable for gases and gas mixtures.	
9.2. Other information		
9.2.1. Information with regard to physical hazard cl	lasses	
Explosion limits	: Non flammable.	
Oxidising properties	: No oxidising properties.	
9.2.2. Other safety characteristics	. .	
Other data	: Gas/vapour heavier than air. May accumulate in confined spaces, particularly at or below ground level.	
SECTION 10: Stability and reactivity		
10.1. Reactivity		
	Data for mixture are not available.	
10.2. Chemical stability		
	Stable under normal conditions.	
10.3. Possibility of hazardous reactions		
	None.	
Reactivity	 This mixture contains components with the following reactivity : Can form explosive mixture with air. May react violently with oxidants. 	
10.4. Conditions to avoid		
	Avoid moisture in installation systems.	
10.5. Incompatible materials		
	For additional information on compatibility refer to ISO 11114.	
10.6. Hazardous decomposition products		
	Under normal conditions of storage and use, hazardous decomposition products should not be produced.	
SECTION 11: Toxicological information	n	
11.1. Information on hazard classes as define	ed in Regulation (EC) No 1272/2008	
Acute toxicity	: No toxicological effects from this product.	

: No known effects from this product.

Toxic for reproduction : Fertility

Toxic for reproduction : unborn child

Skin corrosion/irritation

Germ cell mutagenicity

Carcinogenicity

Serious eye damage/irritation

Respiratory or skin sensitisation

according to the REACH Regulation (EC) 1907/2006 amended by Regulation (EU) 2020/878 Version: 1.0 Revision date: 13/12/2022 Issue date: 13/12/2022

Argomix H2		
STOT-single exposure	: No known effects from this product.	
STOT-repeated exposure	: No known effects from this product.	
Aspiration hazard	: Not applicable for gases and gas mixtures.	
11.2. Information on other hazards		
Other information	: The substance/mixture has no endocrine disrupting properties.	
SECTION 12: Ecological information		
12.1. Toxicity		
Assessment	: No ecological damage caused by this product.	
	: No data available.	
EC50 72h - Algae [mg/l] LC50 96 h - Fish [mg/l]	 No data available. No data available. 	
12.2. Persistence and degradability		
Assessment	: No ecological damage caused by this product.	
12.3. Bioaccumulative potential		
Assessment	: No ecological damage caused by this product.	
<u>12.4. Mobility in soil</u>		
Assessment	: No ecological damage caused by this product.	
12.5. Results of PBT and vPvB assessment		
Assessment	: Not classified as PBT or vPvB.	
12.6. Endocrine disrupting properties	The substance/mixture has no endocrine disrupting properties.	
12.7. Other adverse effects	The substance/mixture has no endocrine disrupting properties.	
Other adverse effects	: No known effects from this product.	
Effect on the ozone layer	: No effect on the ozone layer.	
Effect on global warming	: Contains greenhouse gas(es).	
SECTION 13: Disposal considerations		
13.1. Waste treatment methods		
List of hazardous waste codes (from Commission Decision 2000/532/EC as amended)	 May be vented to atmosphere in a well ventilated place. Do not discharge into any place where its accumulation could be dangerous. Return unused product in original container to supplier. 16 05 05 : Gases in pressure containers other than those mentioned in 16 05 04. 	
13.2. Additional information		
	External treatment and disposal of waste should comply with applicable local and/or national regulations.	
SECTION 14: Transport information		
14.1. UN number or ID number		

14.1. UN number or ID number

In accordance with ADR / RID / IMDG / IATA / ADN UN-No.

Avoid transport on vehicles where the load space is not separated from the driver's compartment. Ensure vehicle driver is aware of the potential hazards of the load and knows what to do in the event of an accident or an emergency.

- Before transporting product containers:
- Ensure there is adequate ventilation.
- Ensure that containers are firmly secured.
- Ensure valve is closed and not leaking.
- Ensure valve outlet cap nut or plug (where provided) is correctly fitted.
- Ensure valve protection device (where provided) is correctly fitted.

14.7. Maritime transport in bulk according to IMO instruments

Not applicable.

SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

DISCLAIMER OF LIABILITY

 Before using this product in any new process or experiment, a thorough material compatibility and safety study should be carried out.
 Details given in this document are believed to be correct at the time of going to press.

Whilst proper care has been taken in the preparation of this document, no liability for injury or damage resulting from its use can be accepted.

End of document
