|                                           | See also sections 8 and 13.                                                                                                                                                            |
| SECTION 7: Handling and storage           |                                                                                                                                                                                        |
| 7.1. Precautions for safe handling        |                                                                                                                                                                                        |
| Safe use of the product                   | : The product must be handled in accordance with good industrial hygiene and safety procedures.                                                                                        |
|                                           | Only experienced and properly instructed persons should handle gases under pressure.                                                                                                   |
|                                           | Consider pressure relief device(s) in gas installations.                                                                                                                               |
|                                           | Ensure the complete gas system was (or is regularily) checked for leaks before use.                                                                                                    |
|                                           | Do not smoke while handling product.<br>Use only properly specified equipment which is suitable for this product, its supply pressure and                                              |
|                                           | temperature. Contact your gas supplier if in doubt.                                                                                                                                    |
|                                           | Avoid suck back of water, acid and alkalis.                                                                                                                                            |
|                                           | Do not breathe gas.                                                                                                                                                                    |
|                                           | Avoid release of product into work area.                                                                                                                                               |
| Safe handling of the gas receptacle       | <ul> <li>Do not allow backfeed into the container.</li> <li>Protect containers from physical damage; do not drag, roll, slide or drop.</li> </ul>                                      |
|                                           | When moving cylinders, even for short distances, use a cart (trolley, hand truck, etc.) designed to                                                                                    |
|                                           | transport cylinders.                                                                                                                                                                   |
|                                           | Leave valve protection caps in place until the container has been secured against either a wall or benc                                                                                |
|                                           | or placed in a container stand and is ready for use.                                                                                                                                   |
|                                           | If user experiences any difficulty operating valve discontinue use and contact supplier.                                                                                               |
|                                           | Never attempt to repair or modify container valves or safety relief devices.<br>Damaged valves should be reported immediately to the supplier.                                         |
|                                           | Keep container valve outlets clean and free from contaminants particularly oil and water.                                                                                              |
|                                           | Replace valve outlet caps or plugs and container caps where supplied as soon as container is                                                                                           |
|                                           | disconnected from equipment.                                                                                                                                                           |
|                                           | Close container valve after each use and when empty, even if still connected to equipment.                                                                                             |
|                                           | Never attempt to transfer gases from one cylinder/container to another.                                                                                                                |
|                                           | Never use direct flame or electrical heating devices to raise the pressure of a container.                                                                                             |
|                                           | Do not remove or deface labels provided by the supplier for the identification of the content of the<br>container.                                                                     |
|                                           | Suck back of water into the container must be prevented.                                                                                                                               |
|                                           | Open valve slowly to avoid pressure shock.                                                                                                                                             |

according to the REACH Regulation (EC) 1907/2006 amended by Regulation (EU) 2020/878 Version: 1.0 Revision date: 13/12/2022 Issue date: 13/12/2022

## Argomix N10

### 7.2. Conditions for safe storage, including any incompatibilities Observe all regulations and local requirements regarding storage of containers. Containers should not be stored in conditions likely to encourage corrosion. Container valve guards or caps should be in place. Containers should be stored in the vertical position and properly secured to prevent them from falling over. Stored containers should be periodically checked for general condition and leakage. Keep container below 50°C in a well ventilated place. Store containers in location free from fire risk and away from sources of heat and ignition. Keep away from combustible materials. 7.3. Specific end use(s) None. **SECTION 8: Exposure controls/personal protection** 8.1. Control parameters OEL (Occupational Exposure Limits) : None available. DNEL (Derived-No Effect Level) : None available. PNEC (Predicted No-Effect Concentration) : None available 8.2. Exposure controls 8.2.1. Appropriate engineering controls Provide adequate general and local exhaust ventilation. Oxygen detectors should be used when asphyxiating gases may be released. Systems under pressure should be regularily checked for leakages. Consider the use of a work permit system e.g. for maintenance activities. 8.2.2. Individual protection measures, e.g. personal protective equipment A risk assessment should be conducted and documented in each work area to assess the risks related to the use of the product and to select the PPE that matches the relevant risk. The following recommendations should be considered: PPE compliant to the recommended EN/ISO standards should be selected. Eye/face protection Wear safety glasses with side shields. Standard EN 166 - Personal eye-protection - specifications. Skin protection Hand protection : Wear working gloves when handling gas containers. Standard EN 388 - Protective gloves against mechanical risk, performance level 1 or higher. Wear safety shoes while handling containers. Other Standard EN ISO 20345 - Personal protective equipment - Safety footwear. Respiratory protection When indicated by a risk assessment, Respiratory Protective Equipment must be used. The selection of the Respiratory Protective Device (RPD) must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected RPD. Self contained breathing apparatus is recommended, where unknown exposure may be expected, e.g. during maintenance activities on installation systems. Standard EN 137 - Self-contained open-circuit compressed air breathing apparatus with full face mask. None in addition to the above sections. Thermal hazards 8.2.3. Environmental exposure controls None necessary. **SECTION 9: Physical and chemical properties** 9.1. Information on basic physical and chemical properties

| Viscosity, kinematic                                 | : Not applicable for gases and gas mixtures.                                                             |
| Water solubility [20°C]                              | : Mixture is partially soluble in water                                                                  |
| Partition coefficient n-octanol/water (Log Kow)      | : Not available.                                                                                         |
| Vapour pressure [20°C]                               | : Not applicable.                                                                                        |
| Vapour pressure [50°C]                               | : Not applicable.                                                                                        |
| Density and/or relative density                      | : Not applicable.                                                                                        |
| Relative vapour density (air=1)                      | : Heavier than air.                                                                                      |
| Particle characteristics                             | : Not applicable for gases and gas mixtures.                                                             |
| 9.2. Other information                               |                                                                                                          |
| 9.2.1. Information with regard to physical hazard cl | lasses                                                                                                   |
| Explosion limits                                     | : Non flammable.                                                                                         |
| Oxidising properties                                 | : No oxidising properties.                                                                               |
| 9.2.2. Other safety characteristics                  |                                                                                                          |
| Other data                                           | : Gas/vapour heavier than air. May accumulate in confined spaces, particularly at or below ground level. |
| SECTION 10: Stability and reactivity                 |                                                                                                          |
| 10.1. Reactivity                                     |                                                                                                          |
|                                                      | Data for mixture are not available.                                                                      |
| 10.2. Chemical stability                             |                                                                                                          |
|                                                      | Stable under normal conditions.                                                                          |
| 10.3. Possibility of hazardous reactions             |                                                                                                          |
|                                                      | None.                                                                                                    |
| Reactivity                                           | : None.                                                                                                  |
| 10.4. Conditions to avoid                            |                                                                                                          |
|                                                      | Avoid moisture in installation systems.                                                                  |
| 10.5. Incompatible materials                         |                                                                                                          |
| <u></u>                                              | For additional information on compatibility refer to ISO 11114.                                          |
| 10.6. Hazardous decomposition products               |                                                                                                          |
| 10.0. nazardous decomposition products               | Under normal conditions of storage and use, hazardous decomposition products should not be produced      |
|                                                      |                                                                                                          |

## **SECTION 11: Toxicological information**

| 11.1. Information on hazard classes as defined in Regulation (EC) No 1272/2008 |                                               |  |
|--------------------------------------------------------------------------------|-----------------------------------------------|--|
| Acute toxicity                                                                 | : No toxicological effects from this product. |  |
| Skin corrosion/irritation                                                      | : No known effects from this product.         |  |
| Serious eye damage/irritation                                                  | : No known effects from this product.         |  |
| Respiratory or skin sensitisation                                              | : No known effects from this product.         |  |
| Germ cell mutagenicity                                                         | : No known effects from this product.         |  |
| Carcinogenicity                                                                | : No known effects from this product.         |  |
| Toxic for reproduction : Fertility                                             | : No known effects from this product.         |  |
| Toxic for reproduction : unborn child                                          | : No known effects from this product.         |  |
| STOT-single exposure                                                           | : No known effects from this product.         |  |
|                                                                                |                                               |  |

### MSDS.000151

### 14.2. UN proper shipping name

Transport by road/rail (ADR/RID) Transport by air (ICAO-TI / IATA-DGR) Transport by sea (IMDG)

### 14.3. Transport hazard class(es)

Labelling

### Transport by road/rail (ADR/RID)

Class Classification code Hazard identification number Tunnel Restriction

### Transport by air (ICAO-TI / IATA-DGR) Class / Div. (Sub. risk(s))

Transport by sea (IMDG) Class / Div. (Sub. risk(s)) Emergency Schedule (EmS) - Fire Emergency Schedule (EmS) - Spillage

### 14.4. Packing group

Transport by road/rail (ADR/RID) Transport by air (ICAO-TI / IATA-DGR) Transport by sea (IMDG)

### 14.5. Environmental hazards

Transport by road/rail (ADR/RID) Transport by air (ICAO-TI / IATA-DGR) Transport by sea (IMDG)

### 14.6. Special precautions for user

Packing Instruction(s) Transport by road/rail (ADR/RID) Transport by air (ICAO-TI / IATA-DGR) Passenger and Cargo Aircraft

Cargo Aircraft only Transport by sea (IMDG)

Special transport precautions

- : COMPRESSED GAS, N.O.S. (Argon, Nitrogen)
- : Compressed gas, n.o.s. (Argon, Nitrogen)
- : COMPRESSED GAS, N.O.S. (Argon, Nitrogen)

2.2 : Non-flammable, non-toxic gases.

- : 2 : 1A
- : 20
- : E Passage forbidden through tunnels of category E
- : 2.2
- : 2.2
- : F-C : S-V
- : Not applicable
- : Not applicable
- : Not applicable
- : None.
- : None.
- : None.
- : P200
- : 200. : 200.
- : P200
- Avoid transport on vehicles where the load space is not separated from the driver's compartment. Ensure vehicle driver is aware of the potential hazards of the load and knows what to do in the event of an accident or an emergency.
- Before transporting product containers:
- Ensure there is adequate ventilation.
- Ensure that containers are firmly secured.
- Ensure valve is closed and not leaking.
- Ensure valve outlet cap nut or plug (where provided) is correctly fitted.
- Ensure valve protection device (where provided) is correctly fitted.

14.7. Maritime transport in bulk according to IMO instruments

Not applicable.

## **SECTION 15: Regulatory information**

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

### EU-Regulations

Restrictions on use : Contains no substance(s) listed on the REACH Candidate List. Other information, restriction and prohibition regulations : Contains no substance(s) listed on the PIC list (Regulation EU

: Contains no substance(s) listed on the PIC list (Regulation EU 649/2012 concerning the export and import of hazardous chemicals).

according to the REACH Regulation (EC) 1907/2006 amended by Regulation (EU) 2020/878 Version: 1.0 Revision date: 13/12/2022 Issue date: 13/12/2022
