3.1. Substances

Not applicable

## 3.2. Mixtures

Name	Product identifier	%	Classification according to Regulation (EC) No. 1272/2008 [CLP]
Argon	CAS-No.: 7440-37-1 EC-No.: 231-147-0 EC Index-No.: REACH-no: *1	90	Press. Gas (Comp.), H280
Carbon dioxide	CAS-No.: 124-38-9 EC-No.: 204-696-9 EC Index-No.: REACH-no: *1	5	Press. Gas (Liq.), H280
oxygen	CAS-No.: 7782-44-7 EC-No.: 231-956-9 EC Index-No.: 008-001-00-8 REACH-no: *1	5	Ox. Gas 1, H270 Press. Gas (Comp.), H280

Full text of H- and EUH-statements: see section 16

Contains no other components or impurities which will influence the classification of the product.

\*1: Listed in Annex IV / V REACH, exempted from registration.

\*3: Registration not required: Substance manufactured or imported < 1t/y.

# **SECTION 4: First aid measures**

## 4.1. Description of first aid measures

Inhalation	: Remove victim to uncontaminated area wearing self contained breathing apparatus. Keep victim warm
	and rested. Call a doctor. Perform cardiopulmonary resuscitation if breathing stopped.
Skin contact	: Adverse effects not expected from this product.
Eye contact	: Adverse effects not expected from this product.
Ingestion	: Ingestion is not considered a potential route of exposure.

## 4.2. Most important symptoms and effects, both acute and delayed

In high concentrations may cause asphyxiation. Symptoms may include loss of mobility/consciousness. Victim may not be aware of asphyxiation. See section 11.

# 4.3. Indication of any immediate medical attention and special treatment needed

None.

SECTION 5: Firefighting measures	
5.1. Extinguishing media	
Suitable extinguishing media :	Water spray or fog.
Unsuitable extinguishing media :	Product does not burn, use fire control measures appropriate for the surrounding fire. Do not use water jet to extinguish.
5.2. Special hazards arising from the substance or	mixture
•	Exposure to fire may cause containers to rupture/explode. None.
5.3. Advice for firefighters	
Specific methods :	Use fire control measures appropriate for the surrounding fire. Exposure to fire and heat radiation may cause gas receptacles to rupture. Cool endangered receptacles with water spray jet from a protected position. Prevent water used in emergency cases from entering sewers and drainage systems. If possible, stop flow of product. Use water spray or fog to knock down fire fumes if possible. Move containers away from the fire area if this can be done without risk.

according to the REACH Regulation (EC) 1907/2006 amended by Regulation (EU) 2020/878 Version: 1.0 Revision date: 13/12/2022 Issue date: 13/12/2022

	<u> </u>
Special protective equipment for fire fighters	<ul> <li>In confined space use self-contained breathing apparatus.</li> <li>Standard protective clothing and equipment (Self Contained Breathing Apparatus) for fire fighters.</li> <li>Standard EN 469 - Protective clothing for firefighters. Standard - EN 659: Protective gloves for firefighters.</li> <li>Standard EN 137 - Self-contained open-circuit compressed air breathing apparatus with full face mask.</li> </ul>
SECTION 6: Accidental release measure	s
6.1. Personal precautions, protective equipment	ent and emergency procedures
For non-emergency personnel	<ul> <li>Act in accordance with local emergency plan. Try to stop release. Evacuate area. Ensure adequate air ventilation.</li> <li>Prevent from entering sewers, basements and workpits, or any place where its accumulation can be dangerous.</li> <li>Stay upwind.</li> </ul>
For emergency responders	<ul> <li>See section 8 of the SDS for more information on personal protective equipment</li> <li>Wear self-contained breathing apparatus when entering area unless atmosphere is proved to be safe.</li> <li>Oxygen detectors should be used when asphyxiating gases may be released.</li> <li>See section 5.3 of the SDS for more information.</li> </ul>
6.2. Environmental precautions	
	Try to stop release.
6.3. Methods and material for containment an	d cleaning up
	Ventilate area.
6.4. Reference to other sections	
	See also sections 8 and 13.
SECTION 7: Handling and storage	
7.1. Precautions for safe handling	
Safe use of the product Safe handling of the gas receptacle	<ul> <li>The product must be handled in accordance with good industrial hygiene and safety procedures. Only experienced and properly instructed persons should handle gases under pressure. Consider pressure relief device(s) in gas installations.</li> <li>Ensure the complete gas system was (or is regularily) checked for leaks before use.</li> <li>Do not smoke while handling product.</li> <li>Use only properly specified equipment which is suitable for this product, its supply pressure and temperature. Contact your gas supplier if in doubt.</li> <li>Use only oxygen approved lubricants and oxygen approved sealings.</li> <li>Avoid suck back of water, acid and alkalis.</li> <li>Do not breathe gas.</li> <li>Avoid release of product into work area.</li> <li>Do not allow backfeed into the container.</li> <li>Protect containers from physical damage; do not drag, roll, slide or drop.</li> <li>When moving cylinders, even for short distances, use a cart (trolley, hand truck, etc.) designed to transport cylinders.</li> </ul>
	Leave valve protection caps in place until the container has been secured against either a wall or bench or placed in a container stand and is ready for use. If user experiences any difficulty operating valve discontinue use and contact supplier. Never attempt to repair or modify container valves or safety relief devices. Damaged valves should be reported immediately to the supplier. Keep container valve outlets clean and free from contaminants particularly oil and water. Replace valve outlet caps or plugs and container caps where supplied as soon as container is disconnected from equipment. Close container valve after each use and when empty, even if still connected to equipment. Never attempt to transfer gases from one cylinder/container to another. Never use direct flame or electrical heating devices to raise the pressure of a container. Do not remove or deface labels provided by the supplier for the identification of the content of the container. Suck back of water into the container must be prevented. Open valve slowly to avoid pressure shock.

according to the REACH Regulation (EC) 1907/2006 amended by Regulation (EU) 2020/878 Version: 1.0 Revision date: 13/12/2022 Issue date: 13/12/2022

## MSDS.000128

# Argomix OD 505

# 7.2. Conditions for safe storage, including any incompatibilities

Observe all regulations and local requirements regarding storage of containers.

Containers should not be stored in conditions likely to encourage corrosion.

Container valve guards or caps should be in place.

Containers should be stored in the vertical position and properly secured to prevent them from falling over.

Stored containers should be periodically checked for general condition and leakage.

Keep container below 50°C in a well ventilated place.

Store containers in location free from fire risk and away from sources of heat and ignition. Keep away from combustible materials.

7.3. Specific end use(s)

None.

# SECTION 8: Exposure controls/personal protection

# 8.1. Control parameters

Carbon dioxide (124-38-9)		
EU - Indicative Occupational Exposure Limit (IOE	L)	
Local name		Carbon dioxide
IOEL TWA		9000 mg/m <sup>3</sup>
IOEL TWA [ppm]		5000 ppm
Regulatory reference		COMMISSION DIRECTIVE 2006/15/EC
DNEL (Derived-No Effect Level)	: None available	ž.
PNEC (Predicted No-Effect Concentration)	: None available	à.
8.2. Exposure controls		
8.2.1. Appropriate engineering controls		
	Oxygen detect Systems unde Ensure expose	ate general and local exhaust ventilation. tors should be used when asphyxiating gases may be released. r pressure should be regularily checked for leakages. ure is below occupational exposure limits (where available). use of a work permit system e.g. for maintenance activities.
8.2.2. Individual protection measures, e.g. persona	I protective equipment	
	the use of the recommendati PPE complian	nent should be conducted and documented in each work area to assess the risks related to product and to select the PPE that matches the relevant risk. The following ons should be considered: t to the recommended EN/ISO standards should be selected.
Eye/face protection       : Wear safety glasses with side shields.         Standard EN 166 - Personal eye-protection - specifications.		
Skin protection		
Hand protection	•	gloves when handling gas containers. 388 - Protective gloves against mechanical risk, performance level 1 or higher.
Other	: Wear safety sh	noes while handling containers. SO 20345 - Personal protective equipment - Safety footwear.
Respiratory protection	: When indicate the Respirator hazards of the Self contained during mainter	d by a risk assessment, Respiratory Protective Equipment must be used. The selection of y Protective Device (RPD) must be based on known or anticipated exposure levels, the product and the safe working limits of the selected RPD. breathing apparatus is recommended, where unknown exposure may be expected, e.g. nance activities on installation systems.
Thermal hazards		I37 - Self-contained open-circuit compressed air breathing apparatus with full face mask. on to the above sections.
8.2.3. Environmental exposure controls		
•	Nono nocosso	PV /

None necessary.

# SECTION 9: Physical and chemical properties

## 9.1. Information on basic physical and chemical properties

Safety Data Sheet according to the REACH Regulation (EC) 1907/2006 amended by Regulation (EU) 2020/878

Version: 1.0 Revision date: 13/12/2022 Issue date: 13/12/2022

# MSDS.000128

	MSDS.000128
	Argomix OD 505
- Physical state at 20°C / 101.3kPa	: Gas.
- Colour	: Colourless.
Odour	: Odourless.
	Odour threshold is subjective and inadequate to warn of overexposure.
Melting point / Freezing point	: Not applicable for gases and gas mixtures.
Boiling point	: Not applicable for gas mixtures.
	It is technically not possible to determine the boiling point or range of this mixture. Component with
	lowest boiling point: Argon -186 °C
Flammability	: Non flammable. : Not available.
Lower explosive limit (LEL) Upper explosive limit (UEL)	: Not available.
Flash point	: Not applicable for gases and gas mixtures.
Auto-ignition temperature	: Non flammable.
Decomposition temperature	: Not applicable.
рН	: Not applicable for gases and gas mixtures.
Viscosity, kinematic	: Not applicable for gases and gas mixtures.
Water solubility [20°C]	: Mixture is partially soluble in water
Partition coefficient n-octanol/water (Log Kow) Vapour pressure [20°C]	: Not available.
Vapour pressure [50°C]	: Not applicable. : Not applicable.
Density and/or relative density	: Not applicable.
Relative vapour density (air=1)	: Heavier than air.
Particle characteristics	: Not applicable for gases and gas mixtures.
9.2. Other information	
9.2.1. Information with regard to physical hazard classes	
	: Non flammable.
Oxidising properties	: No oxidising properties.
9.2.2. Other safety characteristics	
Other data	: Gas/vapour heavier than air. May accumulate in confined spaces, particularly at or below ground level.
SECTION 10: Stability and reactivity	
10.1. Reactivity	
	Data for mixture are not available.
40.0 Chemical stability	
10.2. Chemical stability	
	Stable under normal conditions.
10.3. Possibility of hazardous reactions	
	None.
Reactivity	: This mixture contains components with the following reactivity : Violently oxidises organic material.
10.4. Conditions to avoid	
	Avoid mainture in installation systems
	Avoid moisture in installation systems.
10.5. Incompatible materials	
	For additional information on compatibility refer to ISO 11114.
10.6. Hazardous decomposition products	
	Under normal conditions of storage and use, hazardous decomposition products should not be produced.
SECTION 11: Toxicological information	

11.1. Information on hazard classes as defined in Regulation (EC) No 1272/2008			
Acute toxicity : Toxicological effects not expected from this product if occupational exposure limit values are not exceeded.		ues are not	
Skin corrosion/irritation	: No known effects from this product.		
Serious eye damage/irritation	: No known effects from this product.		
Respiratory or skin sensitisation	: No known effects from this product.

according to the REACH Regulation (EC) 1907/2006 amended by Regulation (EU) 2020/878 Version: 1.0 Revision date: 13/12/2022 Issue date: 13/12/2022

## MSDS.000128

	MISD3.000120
	Argomix OD 505
Germ cell mutagenicity	: No known effects from this product.
Carcinogenicity	: No known effects from this product.
Toxic for reproduction : Fertility	: No known effects from this product.
Toxic for reproduction : unborn child	: No known effects from this product.
STOT-single exposure	: No known effects from this product.
STOT-repeated exposure	: No known effects from this product.
Aspiration hazard	: Not applicable for gases and gas mixtures.
11.2. Information on other hazards	
Other information	: The substance/mixture has no endocrine disrupting properties.
SECTION 12: Ecological information	
<u>12.1. Toxicity</u>	
Assessment	: No ecological damage caused by this product.
EC50 48h - Daphnia magna [mg/l]	: No data available.
EC50 72h - Algae [mg/l] LC50 96 h - Fish [mg/l]	: No data available. : No data available.
12.2. Persistence and degradability	
Assessment	: No ecological damage caused by this product.
12.3. Bioaccumulative potential	
Assessment	: No ecological damage caused by this product.
<u>12.4. Mobility in soil</u>	
Assessment	: No ecological damage caused by this product.
12.5. Results of PBT and vPvB assessment	
Assessment	: Not classified as PBT or vPvB.
12.6. Endocrine disrupting properties	
	The substance/mixture has no endocrine disrupting properties.
12.7. Other adverse effects	
Other adverse effects Effect on the ozone layer	<ul> <li>No known effects from this product.</li> <li>No effect on the ozone layer.</li> </ul>
Effect on global warming	: Contains greenhouse gas(es).
SECTION 13: Disposal considerations	
13.1. Waste treatment methods	
	May be vented to atmosphere in a well ventilated place.
	Do not discharge into any place where its accumulation could be dangerous. Return unused product in original container to supplier.
List of hozordous wasta and a (from Commission Desisio	

2000/532/EC as amended) 13.2. Additional information

External treatment and disposal of waste should comply with applicable local and/or national regulations.

SECTION 14: Transport information	
14.1. UN number or ID number	
In accordance with ADR / RID / IMDG / IATA / ADN	
UN-No.	: 1956

List of hazardous waste codes (from Commission Decision : 16 05 05 : Gases in pressure containers other than those mentioned in 16 05 04.
