SDS_Ind.Mix_080

Argomix H2.9

SECTION 1: Identification	of the substance/mixture and of the company/underta	king
1.1. Product identifier		
Product form	: Mixture	

Trade name	: Argomix H2.9
SDS code	: SDS_Ind.Mix_080
Internal reference no.	: 001456
1.2. Relevant identified use	es of the substance or mixture and uses advised against
Relevant identified uses	: Industrial and professional. Perform risk assessment prior to use. Contact supplier for more information on uses.
Uses advised against	: Consumer use.
1.3. Details of the supplier	of the safety data sheet
Company identification	: Sapio Produzione Idrogeno Ossigeno Srl
	Via S. Pellico, 48 20900 Monza - ITALIA
	+39 039 83981 +39 039 836068
	http://www.sapio.it/
	sds@sapio.it
1.4. Emergency telephone	number
Emergency telephone number	: +39 0295705444 (24/7)
SECTION 2: Hazards i	identification
2.1. Classification of the su	ibstance or mixture
Classification according to Reg	gulation (EC) No. 1272/2008 [CLP]
Physical hazards	Gases under pressure: Compressed gas H280
2.2. Label elements	

Labelling according to Regulation (EC) No. 1272/2008 [CLP]

2.3. Other hazards

Other hazards not contributing to the classification : Asph

: Asphyxiant in high concentrations.

SECTION 3: Composition/information on ingredients

3.1. Substances

Not applicable

3.2. Mixtures

Name	Product identifier	%	Classification according to Regulation (EC) No. 1272/2008 [CLP]
Argon	CAS-No.: 7440-37-1 EC-No.: 231-147-0 EC Index-No.: Registration-No.: *1	97,1	Press. Gas (Comp.), H280
Hydrogen	CAS-No.: 1333-74-0 EC-No.: 215-605-7 EC Index-No.: 001-001-00-9 Registration-No.: *1	2,9	Flam. Gas 1, H220 Press. Gas (Comp.), H280

Full text of H-statements: see section 16

Contains no other components or impurities which will influence the classification of the product.

*1: Listed in Annex IV / V REACH, exempted from registration.

*2: Registration deadline not expired.

*3: Registration not required: Substance manufactured or imported < 1t/y.

Sapio Produzione Idrogeno Ossigeno Srl

according to Regulation (EC) No. 1907/2006 (REACH) with its amendment Regulation (EU) 2015/830

SDS_Ind.Mix_080

Argomix H2.9

4.1. Description of first aid measures	
- Inhalation	: Remove victim to uncontaminated area wearing self contained breathing apparatus. Keep victim warm and rested. Call a doctor. Perform cardiopulmonary resuscitation if breathing stopped.
- Skin contact	: Adverse effects not expected from this product.
- Eye contact	: Adverse effects not expected from this product.
- Ingestion	: Ingestion is not considered a potential route of exposure.
4.2. Most important symptoms and effect	s, both acute and delayed
	In high concentrations may cause asphyxiation. Symptoms may include loss of mobility/consciousness. Victim may not be aware of asphyxiation. Refer to section 11.
4.3. Indication of any immediate medical	attention and special treatment needed
	None.
SECTION 5: Firefighting measure	es
5.1. Extinguishing media	
- Suitable extinguishing media	: Water spray or fog.
- Unsuitable extinguishing media	: Do not use water jet to extinguish.
5.2. Special hazards arising from the sub-	stance or mixture
Specific hazards	: Exposure to fire may cause containers to rupture/explode.
Hazardous combustion products	: None.
5.3. Advice for firefighters	
Specific methods	 Use fire control measures appropriate for the surrounding fire. Exposure to fire and heat radiation may caugas receptacles to rupture. Cool endangered receptacles with water spray jet from a protected position. Prevent water used in emergency cases from entering sewers and drainage systems. If possible, stop flow of product. Use water spray or fog to knock down fire fumes if possible. Move containers away from the fire area if this can be done without risk.
Special protective equipment for fire fighters	 In confined space use self-contained breathing apparatus. Standard protective clothing and equipment (Self Contained Breathing Apparatus) for fire fighters. Standard EN 137 - Self-contained open-circuit compressed air breathing apparatus with full face mask. Standard EN 469 - Protective clothing for firefighters.

6.1. Personal precautions, protective equipme	nt and emergency procedures	
	Try to stop release. Evacuate area. Wear self-contained breathing apparatus when entering area unless atmosphere is proved to be safe. Ensure adequate air ventilation. Prevent from entering sewers, basements and workpits, or any place where its accumulation can be dangerous. Act in accordance with local emergency plan. Stay upwind. Oxygen detectors should be used when asphyxiating gases may be released.	
6.2. Environmental precautions		
	Try to stop release.	
6.3. Methods and material for containment and cleaning up		
	Ventilate area.	
6.4. Reference to other sections		
	See also sections 8 and 13.	
SECTION 7: Handling and storage		
7.1. Precautions for safe handling		
Safe use of the product	 The product must be handled in accordance with good industrial hygiene and safety procedures. Only experienced and properly instructed persons should handle gases under pressure. Consider pressure relief device(s) in gas installations. Ensure the complete gas system was (or is regularily) checked for leaks before use. 	

according to Regulation (EC) No. 1907/2006 (REACH) with its amendment Regulation (EU) 2015/830

SDS_Ind.Mix_080

	Argomix H2.9
	Do not smoke while handling product. Use only properly specified equipment which is suitable for this product, its supply pressure and temperature Contact your gas supplier if in doubt.
	Avoid suck back of water, acid and alkalis.
	Do not breathe gas.
	Avoid release of product into atmosphere.
Safe handling of the gas receptacle	: Do not allow backfeed into the container.
	Protect receptacles from physical damage; do not drag, roll, slide or drop.
	When moving receptacles, even for short distances, use a cart (trolley, hand truck, etc.) designed to transport receptacles.
	Leave valve protection caps in place until the container has been secured against either a wall or bench or placed in a container stand and is ready for use.
	If user experiences any difficulty operating receptacle valve discontinue use and contact supplier.
	Never attempt to repair or modify container valves or safety relief devices.
	Damaged valves should be reported immediately to the supplier.
	Keep container valve outlets clean and free from contaminants particularly oil and water.
	Replace valve outlet caps or plugs and container caps where supplied as soon as container is disconnected from equipment.
	Close container valve after each use and when empty, even if still connected to equipment.
	Never attempt to transfer gases from one container to another.
	Never use direct flame or electrical heating devices to raise the pressure of a container.
	Do not remove or deface labels provided by the supplier for the identification of the receptacle contents.
	Suck back of water into the container must be prevented.
	Open valve slowly to avoid pressure shock.
7.2. Conditions for safe storage, inclue	ding any incompatibilities
	Observe all regulations and local requirements regarding storage of containers. Containers should not be stored in conditions likely to encourage corrosion. Container valve guards or caps should be in place.
	Container valve guards of eaps should be in place. Containers should be stored in the vertical position and properly secured to prevent them from falling over. Stored containers should be periodically checked for general condition and leakage.
	Keep container below 50°C in a well ventilated place.
	Store containers in location free from fire risk and away from sources of heat and ignition.
	Keep away from combustible materials.

7.3. Specific end use(s)

None.

SECTION 8: Exposure controls/personal protection

OEL : Occupational Exposure Limits		
ACGIH	Remark (ACGIH)	Simple Asphyxiant
	Regulatory reference	ACGIH 2017
DNEL (Derived-No Effect Level)	: None available	
PNEC (Predicted No-Effect Concentr	ration) : None available	
8.2. Exposure controls		
8.2.1. Appropriate engineering	y controls	
	Provide adequat	e general and local exhaust ventilation.
	•	ressure should be regularily checked for leakages.
	Ensure exposure	e is below occupational exposure limits (where available).
	Oxygen detector	s should be used when asphyxiating gases may be released.
	Consider the use	e of a work permit system e.g. for maintenance activities.
8.2.2. Individual protection me	easures, e.g. personal protective	equipment
	use of the produ	nt should be conducted and documented in each work area to assess the risks related to t ct and to select the PPE that matches the relevant risk. The following recommendations
	should be consid	lered:
		lered: the recommended EN/ISO standards should be selected.
Eye/face protection	PPE compliant to	
Eye/face protection	PPE compliant t : Wear safety glas	b the recommended EN/ISO standards should be selected.
	PPE compliant t : Wear safety glas	o the recommended EN/ISO standards should be selected. ses with side shields.
	PPE compliant t : Wear safety glas Standard EN 16	o the recommended EN/ISO standards should be selected. ses with side shields.
Skin protection	PPE compliant t : Wear safety glas Standard EN 16 : Wear working gl	o the recommended EN/ISO standards should be selected. ses with side shields. 5 - Personal eye-protection - specifications.
Skin protection	PPE compliant t : Wear safety glas Standard EN 16 : Wear working gl Standard EN 38	o the recommended EN/ISO standards should be selected. ses with side shields. 6 - Personal eye-protection - specifications. oves when handling gas containers.
• Skin protection - Hand protection	PPE compliant t Wear safety glas Standard EN 16 Wear working gl Standard EN 38 Wear safety sho	 b the recommended EN/ISO standards should be selected. ses with side shields. 6 - Personal eye-protection - specifications. bves when handling gas containers. 8 - Protective gloves against mechanical risk.

according to Regulation (EC) No. 1907/2006 (REACH) with its amendment Regulation (EU) 2015/830

SDS_Ind.Mix_080

	Argomix H2.9
	Use gas filters with full face mask, where exposure limits may be exceeded for a short-term period, e.g. connecting or disconnecting containers.
	Gas filters do not protect against oxygen deficiency.
	Self contained breathing apparatus (SCBA) or positive pressure airline with mask are to be used in oxygen- deficient atmospheres.
	Standard EN 14387 - Gas filter(s), combined filter(s) and full face mask - EN 136.
	Standard EN 137 - Self-contained open-circuit compressed air breathing apparatus with full face mask.
Thermal hazards	: None in addition to the above sections.
8.2.3. Environmental exposure of	controls
	None necessary.

	None necessary.
SECTION 9: Physical and chemica	al properties
9.1. Information on basic physical and che	emical properties
Appearance	
Physical state at 20°C / 101.3kPa	: Gas
Colour	Mixture contains one or more component(s) which have the following colour(s): Colourless.
Odour	: Odourless.
Odour threshold	: Odour threshold is subjective and inadequate to warn of overexposure.
рН	: Not applicable for gases and gas mixtures.
Melting point / Freezing point	: Not applicable for gas mixtures.
Boiling point	: Not applicable for gas mixtures.
Flash point	: Not applicable for gases and gas mixtures.
Evaporation rate	: Not applicable for gases and gas mixtures.
Flammability (solid, gas)	: Non flammable.
Explosive limits	: Non flammable.
Vapour pressure [20°C]	: Not applicable.
Vapour pressure [50°C]	: Not applicable.
Vapour density	: Not applicable.
Relative density, gas (air=1)	: Heavier than air.
Partition coefficient n-octanol/water (Log Kow)	: Not applicable for gas mixtures.
Auto-ignition temperature	: Non flammable.
Decomposition temperature	: Not applicable.
Viscosity	: No reliable data available.
Explosive properties	: Not applicable.
Oxidising properties	: Not applicable.
9.2. Other information	
Molar mass	: Not applicable for gas mixtures.
Other data	: Gas/vapour heavier than air. May accumulate in confined spaces, particularly at or below ground level.
SECTION 10: Stability and reactiv	ity
10.1. Reactivity	
	No reactivity hazard other than the effects described in sub-sections below.
10.2. Chemical stability	
	Stable under normal conditions.
10.3. Possibility of hazardous reactions	

None

None.

Avoid moisture in installation systems.

For additional information on compatibility refer to ISO 11114.

10.4. Conditions to avoid

10.5. Incompatible materials

10.6. Hazardous decomposition products

Under normal conditions of storage and use, hazardous decomposition products should not be produced.

according to Regulation (EC) No. 1907/2006 (REACH) with its amendment Regulation (EU) 2015/830

Argomix H2.9

SDS_Ind.Mix_080

Skin corrosion/irritation	: No known effects from this product.
Serious eye damage/irritation	: No known effects from this product.
Respiratory or skin sensitisation	: No known effects from this product.
Germ cell mutagenicity	: No known effects from this product.
Carcinogenicity	: No known effects from this product.
Toxic for reproduction : Fertility	: No known effects from this product.
Toxic for reproduction : unborn child	: No known effects from this product.
STOT-single exposure	: No known effects from this product.
STOT-repeated exposure	: No known effects from this product.
Aspiration hazard	: Not applicable for gases and gas mixtures.

SECTION 12: Ecological information

12.1. Toxicity

Assessment	: No ecological damage caused by this product.
EC50 48h - Daphnia magna	: No data available.
EC50 72h - Algae	: No data available.
LC50 96 h - Fish	: No data available.
12.2. Persistence and degradability	

Assessment	: No ecological damage caused by this product.
12.3. Bioaccumulative potential	
Assessment	: No data available.
12.4. Mobility in soil	
Assessment	: Because of its high volatility, the product is unlikely to cause ground or water pollution. Partition into soil is unlikely.
12.5. Results of PBT and vPvB assessment	
Assessment	: Not classified as PBT or vPvB.

12.6. Other adverse effects	
Other adverse effects	: No known effects from this product.
Effect on the ozone layer	: None.
Effect on global warming	: Contains greenhouse gas(es).

SECTION 13: Disposal consideration	ons
13.1. Waste treatment methods	
	May be vented to atmosphere in a well ventilated place.
	Do not discharge into any place where its accumulation could be dangerous.
	Return unused product in original receptacle to supplier.
List of hazardous waste codes (from Commission Decision 2001/118/EC)	: 16 05 05 : Gases in pressure containers other than those mentioned in 16 05 04.
13.2. Additional information	

SECTION 14: Transport information		
14.1. UN number		
UN-No.	: 1956	
14.2. UN proper shipping name		
Transport by road/rail (ADR/RID)	COMPRESSED GAS, N.O.S. (Argon, Hydrogen)	
Transport by air (ICAO-TI / IATA-DGR)	: Compressed gas, n.o.s. (Argon, Hydrogen)	
Transport by sea (IMDG)	COMPRESSED GAS, N.O.S. (Argon, Hydrogen)	

External treatment and disposal of waste should comply with applicable local and/or national regulations.

according to Regulation (EC) No. 1907/2006 (REACH) with its amendment Regulation (EU) 2015/830

Revision date: 06/07/2018 Version: 1.0

14.4. Packing group	
Transport by road/rail (ADR/RID)	: Not applicable
Transport by air (ICAO-TI / IATA-DGR)	: Not applicable
Transport by sea (IMDG)	: Not applicable
14.5. Environmental hazards	
Transport by road/rail (ADR/RID)	: None.
Transport by air (ICAO-TI / IATA-DGR)	: None.
Transport by sea (IMDG)	: None.
14.6. Special precautions for user	
Packing Instruction(s)	
Transport by road/rail (ADR/RID)	: P200
Transport by air (ICAO-TI / IATA-DGR)	
Passenger and Cargo Aircraft	: 200.
Cargo Aircraft only	: 200.
Transport by sea (IMDG)	: P200
Special transport precautions	: Avoid transport on vehicles where the load space is not separated from the driver's compartment.
	Ensure vehicle driver is aware of the potential hazards of the load and knows what to do in the event of ar accident or an emergency.
	Before transporting product containers:
	- Ensure there is adequate ventilation.
	- Ensure that containers are firmly secured.
	- Ensure container valve is closed and not leaking.
	- Ensure valve outlet cap nut or plug (where provided) is correctly fitted.
	- Ensure valve protection device (where provided) is correctly fitted.
14.7. Transport in bulk according to An	nex II of MARPOL 73/78 and the IBC Code
	Not applicable.

SECTION 15: Regulatory information			
15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture			
EU-Regulations			
Restrictions on use	: None.		
Seveso Directive : 2012/18/EU (Seveso III)	: Not covered.		
National regulations			
National legislation	: Ensure all national/local re	gulations are observed.	
15.2. Chemical safety assessment			
	A CSA does not need to be	e carried out for this product.

Flam. Gas 1	Flammable gases, Category 1
Press. Gas (Comp.)	Gases under pressure: Compressed gas
H220	Extremely flammable gas.
H280	Contains gas under pressure; may explode if heated.

DISCLAIMER OF LIABILITY

: Before using this product in any new process or experiment, a thorough material compatibility and safety study should be carried out.

Details given in this document are believed to be correct at the time of going to press.

Whilst proper care has been taken in the preparation of this document, no liability for injury or damage resulting from its use can be accepted.
